

**Ken Wesson**  
**Educational Consultant focused on**  
**the neuroscience of learning**

Kenneth Wesson is a former higher education faculty member and administrator. He delivers keynote addresses on the neuroscience of learning for educational organizations and institutions throughout the United States and overseas. His audiences range from early childhood specialists to university-level educators. Wesson's international audiences have included educators and administrative officers from six of the world's seven continents. His research is frequently published and referenced in *Parents Magazine*, *HealthNet*, and the journal

*Brain World*. Wesson is also a contributing author to the Frog Street Press early literacy programs.

Wesson regularly addresses educational organizations, counseling associations, school districts and parenting organizations on the subject of "brain-considerate" learning environments. In addition to his speeches on the neuroscience of learning, Wesson speaks on the subjects of early brain development, design and engineering, STEM and ST<sup>2</sup>REAM, social-emotional learning, and curriculum development. Wesson also serves on the advisory boards for the Korean Institute of Brain Science, Kids at Science, and the International Association of STEM Leaders. He is an active member of *Scientists without Borders* and he can be seen on PBS specials on human learning and the teenage brain. In 2017, Wesson was nominated to receive the Marquis Who's Who Lifetime Achievement Award.
